A'Few of Those Who Helped Make a Fin: Community.

N E 22 was J. W. Kinneys timber claim. Mr. Kinney did not take care of it in the manner provided by law and Joseph Strobel contested it, made a case and is yet the owner. I. S. L wis, Sr. took up the N E quarter, built a house and a sorghum mill, had more company than any other ten families in the township, either caused by the sorghum mill or the fact there were several pretty girls in the family and most always several girl visitors. He also fed most of the preachers, was all the time jolly and the most consistent christian we ever knew and the most popular man in the township. Mr. Lewis moved to St. John a number of years age and was elect ed probate judge which office he held as long as be wanted it.

The S E quarter was James Kinneys homestead, he sold out in 1878 and moved to Butler county and died

The S W quarter was taken up by Misses Lavina and Sylvia Scott as a soldiers orphans claim and by them proved up and sold. They both are married and live in Kansas City and are in good financial circumstances. The sw quarter of 22 was homesteaded by James W. Kinney who built what was at that time the best house in the township, he sold out in 1878 and moved to Butler county, Kansas and died there a few years

The N E quarter of 24 was taken up by Rev. Quillen, father of John Quillen, who was formerly a well known resident here. Rev. Quillen and family lived here for several years and then sold out and moved to the east part of the state where he died. J. D. Quillen who was proprietor of a newspaper at Ellinwood in 1887 was his son.

The S E quarter of 24 was the who lives there now. On the south- sold out several years ago and moved money, is now a writer on a paper a

Here is a Chance to Save Exactly \$1.00

We will place on sale Saturday, April 4th, Men's Genuine Corona Colt Patent Leather Shoes, Blucher Cut, for

\$2.50

THIS SHOE is made of the best Patent Leather that goes into shoes. They are the Goodyear Welt, which means that they are sewed, and have no tacks, to hurt your feet. It also means that in case the sole wears out you can have the sole sewed on by hand, whereas in other makes, you are compelled, to have them tack-

This shoe has never been sold for less than \$3.50 and some deal-

The reason that we are selling this shoe at this very low price is that through an error in shipping, we received more shoes than we bought. Rather than have them returned, the Manufacturers allowed us a discount, that we now give you an opportunity to save.

They are good shoes. They are the latest style. They are priced at \$1.00 less than they are worth.

"A GOOD PLACE TO TRADE"

Fred Farr homesteaded the S E quarter. Fred was an Englishman and when he built his first house he built on the top of a moderate size sand ridge, house 12x16. This was to be according to Fred, a chicken house later. He planted trees around the house laid out the grounds with drive ways and parks and intended to have a country seat the same as they have in England, Poor Fred, the nearest he ever came to being a country squire was that he bought a pair of Fox hounds but he never had anything to follow the hounds with except a yoke of oxen. He sold out and like the Arab silently wended his way. Like many others Fred only needed a few million to become a good fellow and a benefactor to the community in which he lived.

In those days there was but one settler on 86, his name was Shaffer, We remember eating dinner with him and the dinner was one we appreciatad. It consisted of corn bread, butter and black eyed peas and water and this meal was fully up to the average.

We have written this as we renember it, space will not allow as detailed, description of land or people as we should have liked to have written. Very many people have come and gone from the township since 75-6 and 7. Many of the decendants of the first settlers live in or near the township and we are tempted to take up the young crowd and tell as far as we know what became of them but space will not allow and the recital would only interest the old settlers of that locality. Those were great days and mostly happy days.

You **Know** Them

You are not taking any chances when you buy any of the implements or wagons sold by me. They have all been used by you or your neighbors for years, and are known to be thoroughly reliable. Every man who has everused a lister knows there are none better than the Janesville or Rock Island, and any one of the hundreds of users in this county will tell you so. You will make more money by having a lister that you know is dropping the grain at the right time and place, than one you are continually having to stop and fix. Come in and let me explain the merits of these two listers. I am sure they will

I handle the Ebbert and Weber wagons. None better on wheels.

L. B. Wilcox.

"The Busy Implement Man."
